The Safest Investments

Are those that do not fluctuate during dis-turbed conditions of the money or stock mar-kets. First deed of trust notes (first mort-gages), well secured on real estate in the District of Columbia, constitute "gilt-edge" investments. They do not depend upon the financial responsibility of individuals or cor-porations for their stability, and are exempt from taxaton as personal property. We can supply such investments in amounts from \$500 upward. Send for booklet "Concerning Loans and investments."
